

Logistics Services

TechFORCE

Respond, Resolve, It's Guaranteed...

Let TechFORCE leverage our problem solving, efficiency building, and cost reducing Logistics Services to deliver high impact results for your business. TechFORCE Logistics Services helps companies correct the costly inefficiencies generated by unorganized warehousing procedures and poor parts management.

Making sure your customers get the right products, at the right place, on time and intact is a critical part of their overall satisfaction. Utilizing TechFORCE's Logistics Services reduces parts and warehouse costs in any area dealing with parts inventory, storage, tracking, delivery, and consumption.

Tech Force Logistics Services Include:

- Warehoused Inventory Control
- On-line Order Processing
- Purchasing Management
- Product Assembly/Configuration
- Packing/Packaging
- Deployment/Freight Carrier Management
- Serialized Parts Tracking
- Return to Vendor Management
- Real-time Inventory Analysis
- On-line Parts Management Reporting

Regardless of how unique your environment may be, you decide which Logistics Services you need and we will tailor a program to meet your specific requirements.

Key Benefits

- Improved Efficiency
- Accurate Detailed Information
- Better-organized Parts Inventory
- Rapid Part Location
- Timely Reordering
- Greater Control Over Entire Inventory
- Reduction in Costs and Downtime
- Enables Focus on Core Competency
